

AMOL PAWAR

Amol Shivajirao Pawar was born on March 8th, 1983. He received his G.D in Applied Art from Abhinav Kala Mahavidyalay in Pune, India.

Amol Pawar enjoys exploring a variety mediums and experimenting with different media. He depicts his study in various forms, colour schemes, and textures. Many of his paintings are abstract and reveal his own rhythm of life. Pawar's paintings feature the human form and mirror the philosophy of the mind, which is to think big and let one's aspirations grow. His interest lies in the use of symbols such as icons, numbers, calligraphy, textures, line drawings, and in the elements of nature such as trees, flowers and leaves. He believes that these symbols create a sense of additional depth to art work. His predominant use of Earthly colours, particularly golden, indicates his grounded nature as well as the richness and purity of both, his thoughts and intentions. Almost all of his paintings are figurative and depict real life. Nature forms the main element in Pawar's paintings. The human figures in his paintings represent himself and displays the eternal love that exists between man and woman.
